EDUCATION

- ◆ Master of Fine Arts, Drama-Lighting Design University of California, Irvine 2005
- ◆ Bachelor of Fine Arts, Theatre-Design and Technology University of Colorado, Boulder 2001

RECENT PROFESSIONAL EXPERIENCE (MULTIPLE DISCIPLINES)

◆ **Producer/Production Manager**

Tactical Manoeuvre, LLC. 12/2016-Present

Tactical Manoeuvre is a high-end live art and entertainment collective, specializing in bespoke media, lighting design and SmartArt. Visit www.tactman.com to learn more. I am the producer and production manager for all of TactMan's projects for our core team of artists and technologists.

Projects include such varied installations and events as lightings at the Empire State Building, Vulcan Statue, and The Kosciuszko Bridge, AR/VR and video content for various installations, architectural AV and lighting design for office spaces, and live tour lighting and production design.

Responsibilities for this position include budgeting and bidding, authoring proposals, overall daily client relations, project management and scheduling, general logistics, travel coordination, equipment purchasing, client invoicing, hiring and coordination of subcontractors, social media management, and business planning and forecasting.

Additionally, I participate as a member of the creative team, providing creative oversight on all projects, and adding design expertise on projects requiring architectural or theatrical lighting design, or live production design.

◆ **Technical Director, Production Manager, Lighting Designer, Instructor**

California State University-Long Beach, Department of Dance 7/2014-1/2015, 8/2015-1/2017, 8/2019-12/2019

CSULB's award winning department of dance produces 5 department shows with faculty, student and alumni choreographers, and student performers and crew in its Martha B. Knoebel Dance Theatre each school year. As TD and Production Manager(2014-2017) I was in charge of all technical production of the department's shows, including lighting, sound, projection, rigging and scenery and was responsible for all lighting and scenic design(design 2014-2019). I trained and supervised student labor and part-time contractors in safety, lighting, sound and rigging.

As venue manager(2014-2017), I evaluated the theatre and support spaces for maintenance needs and contracted outside vendors services. Additionally, I was the sole scheduler for venue usage and coordinated academic performance season planning and venue usage for classes and events. I was the point of contact for theatre rental clients and made all final decisions regarding venue usage. I worked closely with these clients and evaluated their ability to produce their work safely and efficiently in our venue, created cost analysis estimates, hired and staffed labor, and collaborated with campus Event Services on billing and risk management.

I also taught Dance 491A(2015-2016), the department's introduction to lighting design course. This was a comprehensive lecture and lab course, covering lighting and design theory, and hands-on design and electrician skills.

◆ **Producer, Production Manager, Co-Production Designer, Company Manager**

The Rascals: Once Upon a Dream 8/2012-9/2013 Broadway and North American Tour

Featuring the four original Rascals and a script and direction by Steven Van Zandt and Marc Brickman, this hybrid show combined filmed reenactments and documentary-style storytelling, ensconced in a 30-song set that the band played live every night.

Credited as a producer for the original 6 shows at the Capitol Theatre in Port Chester, NY, I was involved from the inception, with responsibilities including script editing, coordinating film shoots, casting, co-production design, coordinating travel and accommodation for the band, staffing crew, budgeting and purchasing, payroll and invoice approval and more.

For the Broadway run we took the show from Port Chester, rehearsed and refined it, and mounted a hugely successful limited engagement with ticket sales of 95% for all houses. I served as the Production Manager on Broadway, coordinating load in and load out, purchasing, expenses, rehearsals, schedules and general logistics.

When the show left Broadway for the national tour, I stepped in to the role of company manager, still coordinating expenses, purchasing and payroll but taking on greater responsibility in advancing with venue box offices, organizing all VIP meet and greets and supervising all security and credentialing.

◆ **Associate Designer/Associate Producer**

Bu-who Entertainment and RayFarm 3/2008-9/2013

At Bu-Who Entertainment/RayFarm, I served as Associate Production and Lighting Designer, Assistant Lighting Designer and/or Associate Producer to Marc Brickman for numerous high-profile clients such as Cirque du Soleil, CBS Television, The Empire State Building, Roger Waters, Cee-lo Green, John Mayer and others - see below for further details. Duties included 2d and 3d drafting, equipment specification, design conceptualization, budgeting and bidding, project management and coordination with subcontractors, vendors and artists. Please visit www.rayfarm.com for images of some of these shows.

◆ **Architectural Lighting Designer**

Fox + Fox Design 9/2005-6/2009 and freelance projects to present

Lighting designer for industrial, residential and retail environments. 2010 IES award winner for Louis Vuitton at the Crystals, Las Vegas NV. Responsibilities included fixture layout and specification, lighting level calculations, AutoCAD drafting, client presentation packages, lighting renderings and fixture design.
